Select Download Format:

Flannery O'Connor's "The Displaced" is a short story that explores the theme of displacement. The story is set in a small town in the South, and it follows the lives of a group of people who have been displaced from their homes. The story is written in a simple, straightforward style, and it is a good example of O'Connor's ability to write about the human condition in a way that is both powerful and accessible.
